Hi!
We want you to really get to know us.

We are a second-generation family business, and our name is a tribute to the family's first master ice cream maker: Heberto "Toto" Rodríguez.

We opened our workshop in 2016 to create something we couldn't find elsewhere: truly great ice cream.

After years of hard work, study, research, learning, unlearning, trial and error, and endless testing, we believe we've achieved something few others in the world can offer: honest ice cream made without shortcuts, using a unique recipe for every single flavor.

Crafted with technique, passion, and real ingredients.
Boasting a superb texture and an intense flavor that lingers—first on your palate, and then in your memory.

We know that countless ice cream shops today claim to be artisanal when they aren't—which is why their ice cream bears no resemblance to ours. They use bases filled with colorings, flavorings, and excessive sugar to mask a lack of real flavor.

That's why we don't just tell you about it; we want to prove it to you with exceptional ice cream and the truth—always the truth.
